

EZCast Pro Box Quick Start Guide

Hardware Installation

There will be an HDMI cable and USB adapter inside of the box, use the 5V-1.5A DC adapter to power up EZCast Pro Box, and plug HDMI or VGA cable to your TV or Projector. We also suggest connect RJ-45 port with your router to simplify setup procedures and get stable connection.

App Installation

- IOS and Android users:
 - Please search "EZCast Pro" in Apple's App Store or Google Play and install it.
 - Or Use the QR scanner app to scan the QR code on EZCastPro Box's main page.

*Supports iOS8 and Android 4.2 above

- Windows and Mac OS users:
 - Please download it from our official website:
www.iezcast.com or www.iezvu.com

*Supports from Windows 7/8.1, and Mac OS 10.9 and after.
