

EZCast2 Wireless Display Receiver Quick Start Guide

Rev 2.6

Product information is subject to change without prior notice.

Introduction

EZCast supports multiple wireless display standards, including EZCast, Miracast, DLNA and EZAir (compatible with iOS and macOS). Ongoing firmware upgrades are provided to support latest operating systems. Please read this guide to install and setup your EZCast. Happy Casting!

Software Installation

Visit <https://www.EZCast.com/app> to download platform-specific applications and User Manual.

Scan the QRCode below to download EZCast mobile App.

Hardware Installation

1 EZCast to power

Plug the micro USB cable to EZCast dongle, and power it up by connecting USB cable to an adapter (5V/1A). To make sure your wifi is stable, please place the USB cable adapter in front of the TV.

2 EZCast to TV

Plug EZCast dongle into a HDMI port on TV.

3 Select source

Set your TV's source/ input selection to HDMI port that connected to the EZCast dongle

4 Connect successfully

Your TV screen shall display the instructions once EZCast is connected successfully. Please follow the instructions to complete setup.

Setup for smart device (Android/ iOS)

1 Download EZCast app

Scan QRCode on TV screen or search "EZCast" on Google Play/App Store.

2 Connect to device

(1) Launch EZCast App and follow the guide to add device. If the guide doesn't pop out, click  at the upper right and click "+" at the upper left.

(2) Press  and scan the QRCode on your screen.

(3) Make sure the SSID and picture shown are correct.

3 Connect to router

(1) Connect the device to your home wifi by entering the correct password. After the connection, press "next" button.

(2) Check whether the connection status at the upper right on your screen shows your home wifi or not. If connection fails, please connect again.

4 Sign up EZCast account

Sign up EZCast account to save hashtags, create playlists, voice control, and autoplay.

Screen Mirroring for Android

EZCast/ Mirror (Android 5.0 above)

Click the Mirror icon on the top bar.

Note: For EZCast/ Mirror, it only captures the screen without sound due to limitations in Android. To mirror the sound to your TV, please use EZMirror instead.

Google Home

You may download Google Home App from Google Play. Launch the Google Home App, login with Google account. Then you may mirror to EZCast using Google Home.

Steps: Choose device name: EZCast2-xxxxxxx > Cast my screen > Cast screen

Note: Make sure that EZCast 2 and your device are both connected to same WiFi. Use 5GHz WiFi, instead of 2.4GHz, which provides higher speed connection and better performance for Google Home mirroring.

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body
